```
pip install irflow_client --upgrade
```

1.1.5 Build from source / install extra packages

Clone the repo: `git clone git@github.com:Syncurity/irflow-sdk-python.git`

For running tests:

```
1. Clone the repo:

git clone git@github.com:Syncurity/irflow-sdk-python.git

2. Install all requirements:

cd <project directory>
pip install .
pip install -r requirements-dev.txt

3. Run tests
pytest

4. Run tests with coverage
# With Coverage
cd tests
py.test --cov-report xml --cov-config .coveragerc --cov ../
```

1.1.6 Contribute

Pull requests are always appreciated

1.1.7 Support

Please open an issue in [github](#)

1.1.8 Examples

To get started with examples, read the examples README. It includes two sample python scripts that use the `irflow_client`.

CHAPTER 2

Indices and Tables

- `genindex`
- `modindex`
- `search`
- `class`
- `examples`
